

Client Case Study

Client Name:

Cushman & Wakefield of CA, Inc.

Company Type:

Commercial Property Management

Project Title:

Aliso Viejo – New Management Office Installation

Scope of Work:

Soft Point Media was contacted by Cushman & Wakefield to design, procure, and install all computer and phone equipment required for a two-person on-site property management office at a new Client Services acquisition in Aliso Viejo, CA. Soft Point Media was also responsible for contracting and project managing a wiring vendor to complete all necessary data and phone wiring in the new suite. The office was to contain a desktop PC as well as a laptop with docking station, and a first with a Cushman & Wakefield on-site management office; a hosted Voice over IP telephone system. Soft Point Media also needed to perform a clean, elegant, and high-tech installation to keep in line with the appearance and class of the building the equipment was being installed in.

Budget as Quoted:

Confidential
